The GARNET Network of Excellence

GARNET is a Network of Excellence on Global Governance, Regionalisation and Regulation: The Role of the EU funded under the European Commission's 6th Framework Programme and comprising 42 leading research centres and universities. It is coordinated by the Centre for the Study of Globalisation and Regionalisation at the University of Warwick.

GARNET's aim is to develop a world-class multi-disciplinary network of scientific excellence of researchers, analysts and practitioners with expertise in key issues and themes in global and regional governance. Particular focus is placed on: (i) those elements of the global regulatory framework (trade, finance, security) that (to a greater or lesser extent) structure the modern world system and (ii) an analysis of Europe's role within that framework.
